

The winners of the Amber Trip art jewellery contest 'ECOSIGHT' 2020

XVII International Baltic Jewellery Show Amber Trip 2020 held an art jewellery contest.

Polluted oceans, burning Amazon forests, unable to breathe Delhi, Earth's warming. And how many side-by-side processes that are disrupting the coexistence of nature and mankind! Ecological disharmony - like a threatening dragon, who is constantly coming to our castle to take his victims...

What vision do we have in this confrontation? Do we surrender ourselves to fear and anxiety or are we taking a more conscious and active position? Global and everyday view, thoughts, words, and actions that turn into CREATION that can influence the future.
